ESD 1 est. revenue increase of \$40260
 Although the collection rate for delinquent consistently has been higher than projected, it is prudent that we continue to be cautious with our projections. Additional funds when collected can cover unexpected issues within the budget or purchases equipment needs towards the end of the year.

Interest income will remain projected low, we only had one year with an significant increase and that was due to lease proceeds remaining in the general fund throughout the year.

Dispatch revenue decreased this year due to Jefferson County ESD #3 moving to Bridge City for their dispatch services. Jefferson County ESD #4 is already using Bridge City and the communications director for the ESD's works for Bridge City dispatch.

Amounts in these line items are not projected. However, funds collected can be used to supplement budget requirements and funding gaps.
